

Phlebotomy

Course #	Course Name	Course Description
<p>PBT1-0100</p>	<p>Phlebotomy</p>	<p>This course is designed to prepare the entry-level phlebotomist or those individuals seeking a medical career pathway with the knowledge, skills and attitudes necessary to perform in a medical laboratory environment. The phlebotomy student gains confidence and professionalism in the art of obtaining blood samples for laboratory analysis through repeated hands-on practice and instructor feedback, followed by a clinical practicum in a medical laboratory. Students are provided instruction in the areas of communication, medical terminology, proper specimen collection, basic anatomy & physiology, as well as complications and variables surrounding venipuncture. Study objectives necessary to take the Phlebotomy Technician Certification Examination are presented. This course matches requirements as established by the National Center for Competency Testing (NCCT), and complies with guidelines/essentials published by the National Accrediting Agency for Clinical Laboratory Science (NAACLS).</p>
<p>PBT1-0200</p>	<p>Clinical Externship</p>	<p>This course is a 40-hour externship experiences in a clinical laboratory setting. The focus is to provide the student the hands-on contact in a real-world setting. focuses on the anatomy and physiology of the musculoskeletal system (bones, bony landmarks, joints, muscles), levels of organization, and mechanisms of health and disease.</p>
