

2016 Ohio Massage Therapy Education Conference

SPEAKER AND SPONSOR BIOS

Presenter: Cindy Williams, LMT

I have been actively involved in the massage profession since 2000 as a practitioner, school administrator, instructor, curriculum developer, and mentor. From 2010-2015, I served as ABMP school liaison supporting schools in the western region of the U.S. I have a passion for learning and teaching, which makes my current role as an Education Program Coordinator and Facilitator a dream come true! When I'm not at work being of service to my beloved profession, I can be found on my yoga mat or on a climbing wall!

Sponsor: Associated Bodywork and Massage Professionals (ABMP)

ABMP serves the massage, bodywork and somatic therapy professions. It is a membership association devoted to promote acceptance of the profession, and protecting the rights of legitimate massage and bodywork practitioners. In addition, our support spans the profession by offering resources and support students. ABMP competes effectively for members by providing the best value and most responsive, knowledgeable service. Our business philosophy is summed up by our credo: expect more.

Presenter: Dale Montelione Grust, LMT

Dale is a NY Licensed Massage Therapist with more than 30 years' experience in the healing arts. She is the founder and director of the Center for Therapeutic Massage in New Paltz, NY and founder of CoreStones, LLC. Over the years, her pursuit of education has led to diversified expertise in many modalities. Some of her studies include—Orthopedic Massage, advance myofascial training, and CranioSacral Therapy. In her practice, Dale specializes in medical massage and pain relief. She strives to find the imbalance in the body that is the cause of pain.

Sponsor: CoreStones, LLC

CoreStones is the developer of a uniquely designed soapstone tool that effectively facilitates deep muscle release. Through years of expertise, Dale Montelione Grust has created a modality using stones—hot or cold—to achieve therapeutic results. The stones are designed to be used for myofascial and trigger point release without compromising the wrists and hands of the therapist. The focus is to help therapists deliver deep release for clients while minimizing the effort exerted to achieve intended therapeutic results.
