

Public Safety - EMT

| Course # | Course Name | Course Description |
|-----------|------------------------------|--|
| EMR1-0100 | Emergency Medical Responder | <p>This course is designed to familiarize the individual with life-saving techniques in a pre-hospital setting as a member of a rescue squad, ambulance service, fire department, or as safety personnel in business and industry. Learners will learn to stabilize a patient until help arrives. They will be capable of working alone in a high stress situation, direct bystanders, and integrate within a team model once help arrives. They will gain insight into the diagnosis and treatment of the sick and injured, ambulance operations, hazardous materials identification and awareness, and the legal and ethical issues surrounding emergency care.</p> <p>This 48-hour course is accredited through the Ohio Department of Public Safety, Division of Emergency Medical Services and follows the Emergency Medical Responder National Education Standards curriculum established by The National Highway Traffic Safety Board, The National Registry of Emergency Medical Technicians, and the State of Ohio, Department of Public Safety, Division of EMS, and the Ohio Administrative, and Revised Codes.</p> |
